Edgi Axel Limandibrata

Web Developer | AI/ML Enthusiast | Creative Technology

Bandung, West Java, Indonesia xgv1807@gmail.com edgiaxel.tech github.com/edgiaxel
linkedin.com/in/edgi-axel

Software Engineering student at STMIK LIKMI with experience developing full-stack web applications, APIs, and databases. Actively exploring artificial intelligence through local LLM integrations, vision inference, and reinforcement learning research. Complementary background in digital media production and creative technology.

EDUCATION

STMIK LIKMI, Bandung — Sept 2023 - Expected 2027

Bachelor of Informatics / Software Engineering - GPA: 3.94 / 4.00

Mobile Apps and Software Engineering

Undergraduate Thesis (In Progress): Comparative study of DQN, PPO, and A2C reinforcement learning algorithms in a custom turn-based card game environment.

EXPERIENCE

Assistant Account Manager Intern - Pos Indonesia, Bandung Branch — March 2026 - June 2026

Bandung, Indonesia

- Assisted account management operations through daily transaction data retrieval, document preparation, and spreadsheet organization.
- Maintained and organized transaction records and supporting documentation using Excel and Google Sheets.
- Developed a Python script to clean and transform CSV data, reducing repetitive manual data preparation and improving the efficiency of spreadsheet workflows.
- Supported operational documentation and customer account administration.

Extracurricular Mathematics Tutor - 9to5 — 2024 - 2025

Bandung, Indonesia

- Taught elementary school students fundamental mathematical concepts and problem-solving techniques.
- Prepared structured learning exercises, practice tests, and homework materials.

Board Game Master - Nakama Board Game Café — June 2023 - August 2023

Bandung, Indonesia

- Introduced and explained board game mechanics and rules to customers.
- Facilitated gameplay sessions and coordinated front-of-house customer service.

SELECTED TECHNICAL PROJECTS

RigCheck — Completed

Privacy-first PC hardware compatibility assistant with local vision AI.

Stack: React, TypeScript, Tailwind CSS, FastAPI, Ollama, Gemma 3 4B, Render

SlideScribe — Completed

AI-assisted study companion turning lecture slides and audio into grounded notes.

Stack: React 19, TypeScript, Vite, Tiptap, FastAPI, MongoDB Atlas, Ollama, Gemma 3 4B

Your Paddock — Completed

Formula 1 briefing dashboard and development tracker with source verification.

Stack: Python 3.13, FastAPI, PostgreSQL, Neon, React, Vite, Ollama, Gemma 3 4B

GhostWave — Completed

Local-first audio player, reactive spectral visualizer, and AI crate curator.

Stack: Web Audio API, TypeScript, React, Tailwind CSS, FastAPI, Ollama, Gemma 3 4B

Reinforcement Learning Research Environment — In Progress

Comparative benchmark of DQN, PPO, and A2C in a custom turn-based card game.

Stack: Python, PyTorch, NumPy, Reinforcement Learning, Gymnasium

TECHNICAL COMPETENCIES

Frontend & Web: React, TypeScript, JavaScript, Next.js, Tailwind CSS, HTML5, CSS3, Vite

Backend & Systems: Python, FastAPI, PHP, Laravel, Java, REST APIs, Node.js (Exposure)

Data & Storage: PostgreSQL, Supabase, MySQL, MariaDB, MongoDB Atlas, SQL

AI & Machine Learning: PyTorch, scikit-learn, Pandas, NumPy, Reinforcement Learning (DQN, PPO, A2C), Ollama, Local LLMs

Tools & Platforms: Git, GitHub, Linux, Vercel, Render, Cloudflare Tunnels

LEADERSHIP & ACTIVITIES

President - Computer and Electronic Student Club, STMIK LIKMI

- Led student club initiatives, coordinated technical learning sessions, and supervised organizational planning and member activities.

LANGUAGES

Indonesian: Native proficiency English: Professional working proficiency Sundanese: Conversational proficiency
